# Arrayan

**Blog**:
https://medium.com/@arrayan.resilientdb/arrayan-a-resilient-food-supply-chain-9a7ce5c7742b

**Website** is live at the URL here. There are issues while connecting to cloud instance of GraphQL and we are checking with Apratim on the same.

**Code Repository**: Github

We have also tried modifying GraphQL APIs in this forked repo. But we had to get back to the existing graphQL APIs considering the deployment.
